

Pranjal Kundliya

Full-Stack Software Engineer — MERN Stack Developer — React.js Developer — UI/UX Engineer

Uttarakhand, India

Phone: +91-8126977256 — Email: rohankundliya@gmail.com — LinkedIn: linkedin.com/in/pranjal-kundliya
GitHub: github.com/GODslayer003 — Portfolio: pranjal-kundliya.vercel.app

Professional Summary

Full-Stack Software Engineer with **1+ year of professional experience** building production-grade web applications using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)**. Experienced in developing scalable frontend applications, RESTful APIs, JWT/RBAC authentication, OpenAI API integrations, and cloud-deployed solutions for international clients. Skilled in React.js, JavaScript, Three.js, GSAP, Socket.IO, and WebRTC, contributing to production systems serving **5,000+ users** while collaborating in Agile teams.

Professional Experience

MERN Stack Developer & UI/UX Engineer

DR Design Private Limited

Oct 2025 – Present

On-site — Full-Time

- Developed production-grade full-stack features for **Indian Railways** (Pulley Detection System) and **KaroFlight** (One-Way, Round-Trip, and Multi-City Flight Booking Platform) using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, contributing to scalable frontend and backend application development.
- Designed and developed the complete **Maven Jobs** recruitment platform (Naukri.com-inspired) by building Admin, CRM, and Sales modules with secure **JWT Authentication**, **Role-Based Access Control (RBAC)**, REST APIs, and enterprise workflow management for B2B clients.
- Built and optimized the complete frontend of **mawahib.ai**, an AI-powered hiring platform for a Jordan-based international client, using **React.js**, **Three.js**, and **GSAP** to deliver responsive interfaces, interactive 3D experiences, and performance-focused animations.
- Contributed to multiple production applications across different industries, including the corporate travel platform **Traveamer**, fintech consumer and merchant applications for **SlideIt**, and a GIS dashboard for a national GNSS network, delivering scalable React-based user interfaces and business solutions.
- Integrated the **OpenAI API** into multiple production systems to automate workflows, enhance user experiences, and deliver AI-powered features while collaborating directly with international clients, gathering requirements, and delivering software within Agile development cycles and production timelines.

Full-Stack Developer Intern

Unified Mentor

Jul 2025 – Sep 2025

Remote

- Designed, developed, tested, and deployed multiple full-stack applications including **Weather App**, **Money Tracker**, and **Sports Buddy** using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- Built responsive user interfaces, implemented RESTful APIs, integrated MongoDB databases, and strengthened practical knowledge of full software development lifecycle (SDLC), frontend engineering, backend development, debugging, and API integration.
- Collaborated remotely using Git-based version control while following Agile development methodologies, sprint planning, and iterative software delivery practices.

Projects

Maven Jobs | React.js, Vite, Node.js, Express.js, MongoDB, Socket.IO, WebRTC, GSAP

2026

- * Developed a production-grade full-stack recruitment platform featuring separate Candidate, Employer, Admin, CRM, and Sales portals using the MERN stack.
- * Implemented AI-powered job matching, advanced job search filters, ATS resume analysis, resume builder with 20+ templates, analytics dashboards, and a real-time 7-stage recruitment pipeline.

- * Built secure REST APIs, JWT authentication, Role-Based Access Control (RBAC), WebSocket-based messaging using Socket.IO, WebRTC video communication, PDF export, and scalable backend architecture.

Novel Den | *React.js, Node.js, Express.js, MongoDB, Three.js, GSAP, Framer Motion*

2026

- * Built a production-ready MERN platform for writers and readers supporting authentication, author management, chapter publishing, and secure content delivery.
- * Implemented JWT authentication, OTP verification using Brevo API, bcrypt password encryption, role-based access control, and a dedicated Admin Dashboard with analytics.
- * Developed immersive user experiences using Three.js, GSAP, Framer Motion, Zustand, PDF.js, Cloudinary integration, and optimized REST APIs deployed on Vercel and Render.

My Quote Mate | *React.js, Node.js, MongoDB, OpenAI API, Stripe, ClickSend*

2025

- * Built an AI-powered quote analysis platform featuring subscription management, OpenAI integration, Stripe payment gateway, and ClickSend OTP verification.
- * Implemented OCR document processing, prompt engineering workflows, structured JSON responses, and scalable backend APIs for AI-powered analysis.

Proven Code — Biome360 PDF Generator | *React.js, Redux Toolkit, Node.js, Express.js, MongoDB*

2025

- * Developed a secure medical reporting platform with JWT authentication, RBAC, automated PDF generation, and structured patient management for Proven Code (UK).
- * Contributed to a production healthcare application actively serving more than **5,000 users** worldwide through secure and scalable web technologies.

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, Python, C++

Frontend Development: React.js, React 18/19, HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit, GSAP, Three.js, Framer Motion, Responsive Web Design

Backend Development: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control (RBAC), Socket.IO, WebRTC

Databases: MongoDB, Mongoose ODM

Cloud & Deployment: Vercel, Render, Cloudinary

AI & Third-Party Integrations: OpenAI API, Prompt Engineering, Stripe, ClickSend, Brevo API, PDF.js

Developer Tools: Git, GitHub, GitHub Actions (CI/CD), VS Code, Cursor, Figma, Vite

Security: Helmet.js, bcryptjs, express-rate-limit, CORS, Morgan, Signed URLs, OTP Verification

Methodologies: Agile, Scrum, Sprint Planning, SDLC, Alpha Testing, User Acceptance Testing (UAT)

Professional Skills: Problem Solving, Software Development, Team Collaboration, Client Communication, Leadership, Time Management

Education

Graphic Era Hill University

Bachelor of Technology (B.Tech), Computer Science and Engineering

2021 – 2025

Dehradun, Uttarakhand
